

Unity™ 20 USB-S

Unity™ 20 USB-S Plus

SecuGen

SecuGen Unity devices are the industry's most accurate, rugged, and affordable all-in-one fingerprint recognition systems. These high-performance, versatile devices feature advanced optical sensors engineered with patented technology to give you the highest quality in fingerprint biometrics.

Accurate Durable Maintenance-Free Cost-Effective

Features

- Fingerprint scanning, processing, extraction and matching all in one device
- Accurate, patented optical USB fingerprint sensor with 500 DPI resolution
- Auto-On™ automatic finger detection and Smart Capture™ for quality scanning of dry, moist, aged, scarred, and difficult-to-scan fingers
- Scratch, impact, corrosion, and electrostatic shock resistant glass platen
- Ultra compact, low profile design
- IP54 certified for dust and water-resistance
- FBI Certified for FIPS 201 (PIV) and Mobile ID FAP 20

FBI Certified

Benefits

- Improved security with convenience and reduced password reset requests because fingerprints act like digital passwords that cannot be lost, forgotten or stolen
- Improved accountability by allowing users to quickly and easily prove their identities with their fingerprints
- Reliable and consistent performance for an ever-increasing number of applications designed for mobile, desktop, network, enterprise, and Internet environments

The Highest Quality in Fingerprint Biometrics at Affordable Prices

Accurate

SecuGen sensors are very accurate thanks to a patented optic design that produces high quality images for greater precision, fewer false rejections and false acceptances, and better overall performance compared to competing fingerprint sensors.

Durable

With a virtually indestructible sensor prism, the SecuGen sensor is extremely rugged. SecuGen sensors are designed to be strong and dependable for consistent scanning all the time, whether outdoors, under harsh conditions, or in high traffic environments.

Maintenance-Free

Unlike semiconductor-based sensors and other optical sensors, SecuGen sensors are made with hardened glass that needs no coatings or special protection. SecuGen sensors resist scratches, ESD, corrosion, and other stresses and can be easily wiped clean without fear of damage.

Cost-effective

SecuGen designs, develops, and manufactures its own fingerprint sensors that are built to last and deliver solid performance for years, making SecuGen sensors the most cost effective choice.

Typical Applications

- Mobile, PC, or network security
- Bank and financial systems
- Medical information systems
- Labor and attendance tracking
- Any password-based application

Free SDKs

With a variety of free Software Development Kits to choose from, SecuGen readers are easy to integrate into almost any kind of application.

Specifications

Product Name	Unity 20 USB-S / Unity 20 USB-S Plus
Model	HU20-ASF-US / HU20-ASFX-US
Fingerprint Sensor	U20-A
Image Resolution	500 DPI
Image Size	300 x 400 pixels
Platen Size	18.2 mm x 23.1 mm
Effective Sensing Area	15.24 mm x 20.32 mm
Image Gray Scale	256 levels (8-bit)
Light Source	LED
Smart Capture Speed	0.2 ~ 0.5 seconds
Biometric Functions	Fingerprint scanning, template extraction, template matching, and template storage
Storage Capacity	Unity 20 USB-S: 200 templates (100 users) Unity 20 USB-S Plus: 20,000 templates (10,000 users)
Features	Fingerprint Management System (FMS) API pre-installed, Auto-On, Smart Capture, 360 Degree Fingerprint Rotation
Biometric Standards/Specs	INCITS 378, ISO/IEC 19794-2, 19794-4, FIPS 201, FBI PIV & Mobile ID FAP 20, NIST MINEX, WSQ
Dimensions	53.9 x 58.5 x 31.6 mm
Weight	97 g
Cable Length	1500 mm
Operating Temperature	-20° ~ 65° C
Operating Humidity	90% noncondensing, max
External Interface	USB with Serial-over-USB communication
Supply Voltage	5 V DC (via USB)
Max Current	180 mA
Dust/Water Resistance	IP54 Certified
Compliance/Certification	FCC, CE, KC, RoHS3, CB, WEEE, USB 2.0 compatible
Warranty	One year limited
Supported OS	Windows, Android, Linux, and macOS

What's Inside a Unity device?

At the heart of the Unity device is SecuGen's ultra-compact U20-A fingerprint sensor with advanced features including:

Auto-On™ automatically detects the presence of a finger when placed on the reader for quick and easy authentication

Smart Capture™ captures high quality fingerprints from dry, moist, aged, scarred and difficult-to-scan fingers for greater accuracy and reliability

High durability and ruggedness with proven resistance to electrostatic shock, impact, drops, scratches, extreme temperatures, humidity, and contaminants such as sweat, dirt, and oil

Patented optical technologies for clear, accurate imaging with high contrast, high signal-to-noise ratio and low distortion

Reliable performance even under challenging conditions and tough environments

Rejection of false fingerprints such as latent prints and 2-D images

Fingerprint data protection with templates that cannot be used to reconstruct fingerprint images

Greater sensor-to-sensor consistency for high accuracy when matching fingerprints enrolled with different fingerprint readers at different locations

SecuGen

Open the World with Your Fingertip!®

Founded in 1998, SecuGen is a leading provider of advanced optical fingerprint recognition technology for physical and information security. Our high quality biometric sensors have been used all around the world in diverse areas such as finance, health care, law enforcement, education, retail, manufacturing, and government at all levels.
